Sprint 4 Report

PoliTrack

PoliDev

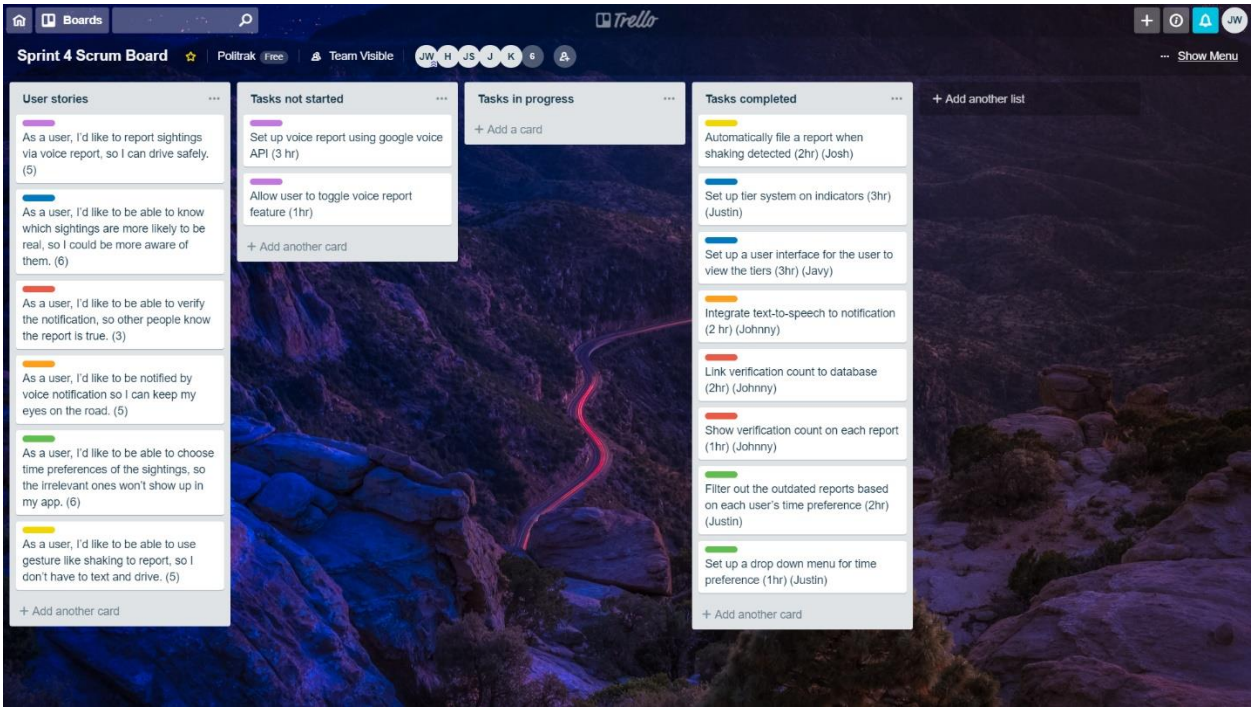
12/1/18

Action to stop doing: The members should choose which tasks they want to work on, not assigned.

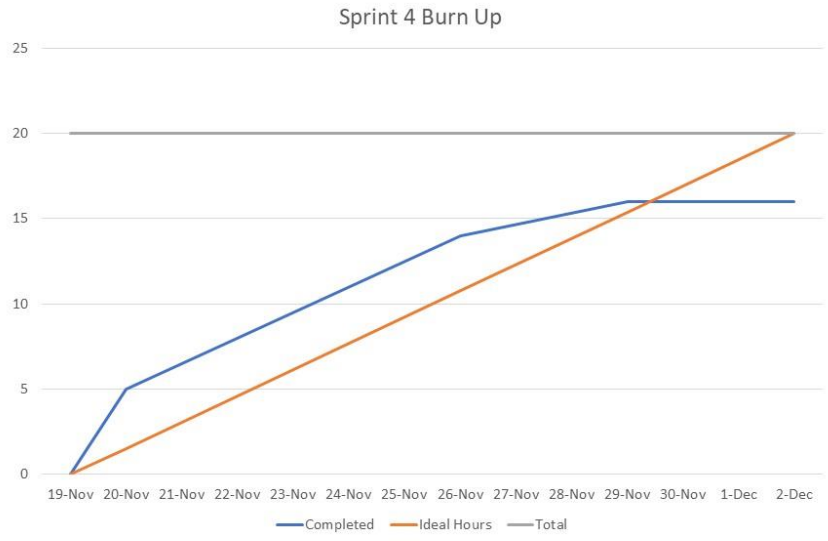
Action to start doing: Team should create a document that specifies who is working on which task to avoid chance of overlap work.

Action to keep doing: Keeping the scope down and making little increment at a time for easy maintenance.

Work completed/not completed: The not started tasks are not completed



Work completion rate:

- # of story completed = 0/2 completed for 1st user story, 2/2 completed for 2nd user story, 2/2 completed for 3rd user story, 1/1 completed for 4th user story, 2/2 completed for 5th user story, 1/1 completed for 6th user story according to the Trello Board above.


- Ideal work hour completed = 16/20, because we don't have access to the Google Voice API.
- Numbers of days for Sprint 4 = 14 days
- Average daily ideal work hours = 95 total hours / (12 + 10 + 14 + 14) days = 1.9 hours per day
- Average daily user stories done = 2.5 (Sprint 1) + 2.42 (Sprint 2) + 2.083 (Sprint 3) + 1.9 (Sprint 4) / (50 days) = 0.1781 user stories per day
